

Rail Transportation Program

Michigan Tech Transportation Institute • Michigan Technological University

Memorandum of Understanding (MOU)

between

_____ (Company) and the Rail Transportation Program (RTP) at Michigan Technological University (MTU) is in effect for one academic year from the period beginning _____. This MOU will be automatically renewed for the following Academic Year unless a written statement by either party is delivered to end the partnership.

Company agrees to utilize one student in Michigan Technological University's RTP in an internship/co-op position during each academic year in which this MOU is in effect as further detailed below.

Responsibilities under this MOU:

Company:

- Utilize one student in Michigan Technological University's RTP in an internship/co-op position during each academic year in which this MOU is in effect. Such internship/co-op position shall be for a minimum of three consecutive months. (Longer duration internships/co-ops may be provided by Company at its discretion.)

Student:

- Actively contribute to advance the goals and objectives of the company.

Rail Transportation Program:

- Assist in the identification of potential students for internship/co-op, if desired by the company.
- Recognize Company and selected intern on the RTP website. For avoidance of doubt, references to the Company on RTP's website, in RTP's annual report or in any other RTP or MTU publications, press releases or similar documents or media shall be subject to the Company's prior written approval.

The company will negotiate terms of internship/co-op directly with selected student candidates. This MOU does not require any financial contributions or commitments between the Rail Transportation Program and the Company.

We, the undersigned, have reviewed and agree to the terms of the memorandum.
